To Our Loyal Members:

We want you to be the first to know about the latest in our strategic plan to help you, as a loyal member, to improve your financial life. Our mission is very clear. We are here to help all our members achieve financial success!

As a result of a year-long strategic planning initiative, Public Service Credit Union (PSCU) will be investing in our community, and building a new facility at our 4025 W. Jefferson location. This facility will be a modern, full service facility, built to support all our employees and members' financial growth needs.

In an effort to begin this exciting new initiative, we will be closing the current Jefferson office on July 27th. A temporary facility will be opened July 30th right next door at 4105-2 W. Jefferson Blvd. We will continue to serve your needs at the temporary facility until the construction on our new facility is complete.

After considerable research and discussion, and with a board and staff committed to being cost effective, we will be closing our Hobson Road branch location effective July 27, 2018. That building will not be reopened but all staff will be retained. You will see familiar, friendly faces whenever you visit any of our other locations.

We encourage you to visit one of our other branches or take advantage of the Shared Branching and ATM networks as we work through this exciting step for our credit union. We also offer a variety of electronic services that help bring convenience to your financial needs:

- Direct Deposit**
- Online Banking & Bill Pay**
- Automatic Payments**
- Mobile App & Mobile Check Deposit**
- Online Loans**

Visit our website at www.mypscu.com for more information and to watch us grow!

Sincerely,

Carolyn Mikesell, President & CEO
